Barry, I spoke with Don Goodrich about the upper Cement Creek samples. He indicated that today was the first he had heard of this CLP need, despite my having asked START for a priority action on the analyses in line with the approval of the Supplemental FSP on August 19th, and to support our draft listing package deadline of September 29. I know that you tried to get this going and contacted Kent several times about it. Thankfully, Don is going to help keep this moving.

As soon as draft data are available, please incorporate those numbers into the HRS package and get the validation going.

Any questions, please call the cell number ASAP.

Sincerely,

Sabrina Forrest
